EDUCATION

ENSIAS University

Artificial Intelligence Engineering
Expected Grad. May 2022

Preparatory School for Engineer Schools

Mathematics and Physics sciences
2018 - 2020

MACHINE LEARNING

Regression
Support Vector Machines
Naive Bayes
K-Nearest Neighbors
Decision Trees
Cluster Analyses
Natural Language Processing

19.04.2021

PROJECTS

Deep fake detector Deep Learning Model 2021

Build a model based on svm aim to detect the real from fake image.

Objects detection recognition Deep Learning Model 2021

Buil a model based on svm aim to segmentate and recognize objected.

Chameleon Clustering Algorithm 2021

Agglomerative clustering algorithm for maximasing intrasimilarity and minimasing intersimilarity

Snubby Land C++ Game 2020

Game with multiple options online, vs computer, two player.
